PROFILE

Statistician with over 10 years' experience in healthcare analytics and government statistics. Experienced in leading and mentoring analysts, building automated reporting pipelines, and delivering insights from large NHS and administrative datasets using SQL, Power BI and Python. Skilled at engaging clinical, policy and non-technical stakeholders.

TECHNICAL SKILLS

Statistical Software: Python, R, SQL, SPSS, Power BI, Excel, Git

Methods: Regression Modelling, Survival Analysis, Data Pipelines & Automation

Industry Experience: Healthcare, Government, Business Analytics, Environmental

EMPLOYMENT

Data Visualisation Volunteer

Mar 2026 – present

PSI (Statisticians in the Pharmaceutical Industry)

- Participating in healthcare data visualisation challenges using clinical trial datasets
- Communicated statistical findings visually for evidence-based interpretation

Statistician

Mar – May 2025

Department for Environment, Food and Rural Affairs (DEFRA)

- Delivered insights through dashboards supporting fairness and policy decision-making
- Conducted intersectional gender pay gap analysis across EDI dimensions

Statistician

Feb – Mar 2025

Office for National Statistics (ONS)

- Validated population estimates using large linked administrative datasets
- Built reproducible Python workflows using Git version control to support analysis

Environmental Statistician

Nov 2023 – Aug 2024

Map Impact

- Conducted geospatial and remote sensing analysis using QGIS and Python, working with satellite-derived environmental datasets (NDVI, NDWI, LAI)
- Integrated geospatial features with statistical analysis, including correlation analysis to explore relationships between temperature and algal bloom activity

Statistician - Reporting Analyst

May 2021 – Jul 2022

UK Health Security Agency (UKHSA)

- Led a team of 10 analysts producing the weekly national COVID-19 statistical report for NHS Test and Trace, ensuring on-time publication every week
- Reviewed analysts' code and outputs, liaised with IT and media teams on publication

Statistician/ Data Scientist

Jan – May 2021

Freshminds

- Contract role for a digital education and course provider company (confidential)
- Revised product pricing using statistical methods to assist the sales department

Analyst Statistician

Sep – Dec 2020

OBH (Outcomes Based Healthcare)

- Analysed NHS England and electronic health record (EHR) datasets to support healthcare analytics and outcomes reporting
- Cleaned, validated and explored patient-level healthcare datasets using statistical methods and visualisation techniques
- Used modelling and forecasting tools to predict mortality risk of COVID-19

Senior Data Analyst

Aug 2019 – Feb 2020

Domestic and General

- Transferred Excel reports with Macros to automated Power BI dashboard
- Applied statistical methods to customer data to explain contributors to churn
- Dotted-line managed two analysts, reviewing code, aligning outputs with deliverables

Data Science Project Lead (Voluntary)

Jan 2018 – Jan 2023

DataKind UK Charity

- Supported social impact organisations through exploratory analysis and insight generation using charity and ONS datasets
- Led a team of 15 volunteer analysts at a DataDive weekend for a charity client

Analyst Statistician

Mar 2014 – Apr 2019

Thatcham Research

- Published statistical research demonstrating the safety impact of Autonomous Emergency Braking systems using motor insurance claims data
- Deputised for manager during maternity leave, mentoring new starters and ensuring projects were delivered on time
- Built and maintained Qlik Sense dashboards tracking monthly industry safety trends including data modelling and source mapping
- Analysed, standardised and manipulated large databases (Query data via SQL).
- Communicated complex data insights to non-technical audiences via PowerPoint

PROFESSIONAL DEVELOPMENT

- AI DevCamp – Zero to Expert in AI Agents (Google Developer Group London, 2026)
- Self-directed study in machine learning and AI tools
- Member of Toastmasters, developing public speaking and presentation skills

EDUCATION**Team Leadership Certificate**

2018

Newbury College, Distance Learning Course

MBA International

2012 – 2013

Anglia Ruskin University, London campus

MSc Statistics with Medical Applications

2010 – 2011

University of Sheffield

- Statistical risk-prediction modelling for lung cancer using clinical datasets.

BSc (Hons) Actuarial Science

2003 – 2006

University of Kent
